# RI TRANSPARENCY REPORT

## 2017

### Glennmont Partners

## About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2017 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

## Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six [Principles for Responsible Investment](#). It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
☑	The signatory has completed some parts of this indicator
🔒	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ⓜ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

**Gateway asset class implementation indicators**

<b>OO 11</b>	<b>Mandatory</b>	<b>Public</b>	<b>Gateway</b>	<b>General</b>
--------------	------------------	---------------	----------------	----------------

<b>OO 11.1</b>	Select the internally managed asset classes in which you addressed ESG incorporation into your investment decisions and/or your active ownership practices (during the reporting year).
----------------	---

- Infrastructure
- None of the above

<b>OO 11.3</b>	Additional information. [Optional]
----------------	------------------------------------

Glennmont Partners is one of Europe's largest fund managers focusing exclusively on investment in clean energy infrastructure. We raise long-term capital to invest in alternative power generation projects, such as wind farms, biomass power stations, solar parks and small-scale hydro power plants. Our carefully selected, risk managed investments deliver sustained performance and predictable returns over periods of 10 years or more.

We are a specialist, international team with huge collective experience in the development, construction and operation of renewable energy generation projects. Formerly BNP Paribas Clean Energy Partners, the team has been working together since 2007, and has established a reputation for making intelligent, long-term investments that deliver absolute returns.

-------	-----------	--------	-------------	-------

**New selection options have been added to this indicator. Please review your prefilled responses carefully.**

**SG 12.1**

Indicate if your organisation executes scenario analysis and/or modelling in which the risk profile of future ESG trends at portfolio level is calculated.

- We execute scenario analysis which includes factors representing the investment impacts of future environmental trends
- We execute scenario analysis which includes factors representing the investment impacts of future social trends
- We execute scenario analysis which includes factors representing the investment impacts of future governance trends
- We execute other scenario analysis, specify
- We do not execute such scenario analysis and/or modelling

**SG 12.2**

Indicate if your organisation considers ESG issues in strategic asset allocation and/or allocation of assets between sectors or geographic markets.

- We do the following
- We do not consider ESG issues in strategic asset allocation

**SG 15****Mandatory****Public****Descriptive****General****SG 15.1**

Describe how you address ESG issues for internally managed assets for which a specific PRI asset class module has yet to be developed or for which you are not required to report because your assets are below the minimum threshold.

Asset Class	Describe what processes are in place and the outputs or outcomes achieved
Infrastructure	<p>Glennmont Partners believes that ESG factors can have a material impact on the financial performance of clean energy infrastructure investments. Clean energy infrastructure assets have long life spans hence the investment appraisal and asset management processes must consider all risk factors to ensure that the value of investments is maintained over their life.</p> <p>As a long-term investor, we consider all material environmental, social, governance and reputational factors in our investment policy risk assessment alongside the more typical financial, tax and economic considerations.</p>

**SG 15.2**

Additional information [Optional].
